WHAT ARE COOKIES??

Cookies are small files that some websites store on the hard drive on your computer or mobile device. This solution is widely used for many purposes, such as ensuring the proper functioning of a website or providing market data to the owners of a given service.

HOW DO WE USE COOKIES?

We use cookies to ensure that our Service works properly, to make your next visit to our sites more enjoyable, to make the services we offer more user-friendly (for example by remembering your location), and to obtain certain market data from you. For the purposes of this cookie policy, the term „cookie” includes third party cookies such as pixels, web beacons, clear gifs and similar technology.

WHAT KIND OF COOKIES DO WE USE?

Our website mainly uses the following types of cookies:

1. Cookies required to make our Service work: Such cookies are necessary for the proper provision of services on the Website.
2. Cookies to improve the effectiveness of the Website: Such cookies gather information about how users use our Website, and which of its functions. For example, cookies designed to improve the effectiveness of our Service indicate which pages of the Service are of high interest to users, monitor traffic on the pages of the Service and collect anonymised analytical data.
3. Functional cookies: These types of cookies are used to establish and remember user preferences. For example, functional cookies may use information about your location to ensure that you are directed to the correct page on our website tailored to your particular location or region.
4. Analytical cookies: These cookies allow us to track and analyse customer behaviour when using our Website based on anonymous data.
5. Advertising Cookies: These cookies are used to present tailored advertisements for our Services on third party websites. For example: if you go to an external website of one of our partners after leaving our Service, you will see ads for our Service there.

HOW CAN I MANAGE MY USE OF COOKIES?

All web browsers allow you to manage cookies from the appropriate folder. This means that once you have finished using our Services, you can either delete cookies from the folder in which they are stored or choose your cookie usage settings even before you use our Services. Please note that deleting or disabling cookies may adversely affect the performance of our Service. For example, you may not be able to view all features offered on the Service; you may not be able to save your preferred settings, and some pages may not display correctly.
